

Adventurous trips from Toronto

Toronto

Toronto is now become a popular city among Indians and other travelers. I see a lot of movement into this city from an immigration stand point. I took the cue when I saw a lot of my friends were either moving to this multicultural city or were visiting it during their trip to the United States' East coast.

Having moved here myself, I made it a point to explore the beautiful natural locations around Toronto, a city I now call home.

A lot of people have written to me on Instagram and other platforms inquiring about what they can do/see in and around Toronto which is why I'm sharing my travel highlights from around Toronto here for anyone who's planning a trip to Toronto.

Sunflower fields

- Best month to visit: August
- Sunflower farms: David Family Farm, Dixie Orchards
- Be sure to carry: Bug spray to keep the honeybees away, a hat to protect yourself from the blazing sun

Beaches

- Best months to visit: July to September
- Beaches close to Toronto: Scarborough Bluffs, Woodbine Beach, Cherry Beach
- Be sure to carry: Beach blanket for a lovely day picnic

Chasing Waterfalls

- Best month to visit: July to October
- Best waterfalls: Hamilton
- Be sure to carry: Your camera, a towel in case you decide to step into the waterfall, a small snack

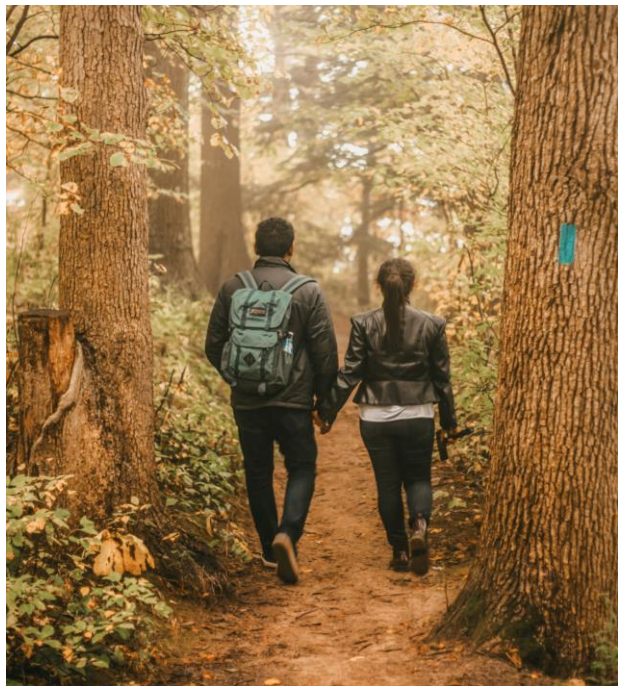

Lavender farms

- Best month to visit: July
- Lavender farms: Terre Bleu, Laveanne
- Be sure to carry: Bug spray to keep the bees away, a hat to protect yourself from the blazing sun, white clothes for amazing photos amidst the Lavenders

Fall hikes

- Best month to visit: September/October
- Fall views: Dundas Peak, Muskoka, Mount Nemo, Mono Cliffs Provincial Park, Rattlesnake point, parks in the city
- Be sure to carry: Water, a light jacket, your camera

Wine country

- Best month to visit: June to November
- Regions: Niagara on the lake, Prince Edward County
- Be sure to carry: \$\$ to pick up some wines and set up a lovely wine and cheese picnic in the vineyards, comfortable shoes
